

I would like the Federal Government to leave Wisconsin's "Do Not Call List" left alone. I can't tell you what a relief it is to sit down to supper and actually get to eat it without the phone ringing what seems to be every time. It is almost like they can see me just about to take my first bite and the phone would ring. What a relief our do not call list has made.... please leave it be.
Thank you... Diane Opicka
